South East Strategic Partnership for Migration

Business Plan 2021-23

Introduction

The South East is a very large and diverse region with England's highest number of local authorities (70) and a predominantly two tier structure requiring effective engagement at County, Unitary and District levels. It hosts the largest number of migrants in the UK (with the exception of London), is a global gateway by sea, air and rail and is a hub for many other migrants en route to other parts of the UK.

The core purpose of the South East Strategic Partnership for Migration (SESPM) is to provide strategic leadership, advice and coordination for migration policy issues affecting the South East region. We also provide specialist delivery on programmes such as asylum dispersal, the regional coordination and matching of the Refugee Resettlement Programme including English for Speakers of Other Languages (ESOL) and unaccompanied migrant children's programmes.

SESPM operates through an effective minimalist structure with a lead officer 100% dedicated to migration issues supported by a small team of part time and seconded staff based within the South East England Councils (SEEC). This enables one point of contact which connects into the heart of the South East. The established networks and structures of SESPM and SEEC enable us to achieve excellent value for money in the delivery of effective two way communication between the Home Office and local partners; ensuring Home Office objectives including controlling and managing migration, safeguarding the vulnerable and host communities, improving customer service and promoting growth are communicated and appropriately supported through strengthened partnership working.

The partnership is overseen by an Executive Board chaired by an elected local authority leader. Following a review of governance the core membership will now include three further Councillors, Local Authority Chief Executives/Lead Officers, National Police Chiefs Councils, Home Office (covering key business areas), Oxford University and AASC accommodation provider and the AIRE contractor.

In addition, there is a far reaching sub-regional structure based round four geographical areas, which enable SESPM to remain close to those supporting migrants on the ground. This includes voluntary sector, health practitioners, emergency and public services, and the No Recourse to Public Funds (NRPF) network.

The Board agrees the business plan and objectives. The objectives reflect the requirements of the Enabling Grant Agreement with the Home Office and agreed regional priorities.

Progress against the business plan will be reported in line with the grant requirements i.e. in submission of grant payment requests, quarterly and end of year reports in addition to scrutiny at the Executive Board meetings. Whilst this plan covers the three year period 2021-23 it will be reviewed after the first year.

2021 -23 – Focus at a Glance

We will prioritise our work on widening asylum dispersal, supporting Operation Oak, contingency accommodation and Covid recovery, coordination of the UK Resettlement Scheme (including ESOL) and the National Transfer Scheme (NTS).

We will support local understanding and objectively assess the regional impact of the introduction of new policy. In support of a place based approach, we will endeavour to hear from local authorities as to what works best in each locality when managing migration across the South East and relay this to the Home Office.

We will respond flexibly and effectively to changes in migration policy and decision making. We will support the communications around the introduction of the points based system, and in reaching the vulnerable yet to reach EU citizens to register for Settled Status, working with local authorities and key partners to respond to the impacts of the new visa route for British Nationals overseas from Hong Kong, supporting their language and integration needs.

We will continue to identify regional migration priorities and maintain and build robust, cross sector partnerships through the facilitation and coordination of regular Sub Regional Strategic Migration Groups, the Regional Executive Board and the regional NRPF network.

We will seek to support local and national priorities such as promoting community integration, voluntary returns and combatting modern slavery.

We will continue to provide an effective single point of contact for the South East region on migration issues remaining an effective and efficient two-way conduit between central sources such as Home Office Communications, National Asylum Support Forum and Migration Advisory Committee, Local Authorities and other local partners.

We will continue to represent the South East region on national bodies including the Local Government Association Asylum, Migration and Refugee Task Force, the Association of Directors of Children's Services Asylum Task Force, the Voluntary Returns Steering Group and the National No Recourse to Public Funds Network.

SESPM – How we work

The work of SESPМ is guided by the following ways in which we work with our partners:

- Playing an active role in the safe resettlement of adults and children
- Maintaining objectivity, fairness and an equitable approach that is politically neutral and non-judgemental
- Understanding shared issues, informing, enabling and providing a platform for others in the South East who are involved with migration
- Sharing expertise and good practice amongst others in the South East
- Respecting different perspectives and approaches
- Combining flexibility to respond to events alongside planned activities
- Using evidence and facts to guide our work
- Remaining accountable, transparent and working to professional standards

Strategic objectives

- **Engaging and networking.** Provide an efficient, flexible and quality means of engagement for the Home Office and local partners in the South East to effectively identify, understand, communicate and address migration issues of national and local importance. Engaging senior representatives from South East local authorities, identifying and maintaining networks of the key statutory and voluntary sector partners involved with migration.
- **Assisting partners in the South East to respond to migration priorities.** Support South East local authorities to help them respond to the challenges migration may cause. This will include assisting partners to identify local priorities, enhancing their understanding of the local impact of migration and sharing this understanding with the Home Office. For 2021 -23 this will include: the widening of asylum dispersal, the UK Resettlement Scheme, children and young people, combatting Modern Slavery, promoting awareness and understanding of the voluntary returns options, enhancing the asylum process (including accommodation), integration and community cohesion
- **Support the development of evidence-based policy and practice** Gathering evidence, monitoring trends, analysing and reporting on the impacts of migration to and from the South East, identifying and sharing good practice in terms of responding to migration issues, training and dissemination of information. We have modest additional resources through the Controlling Migration Fund to support this objective for UASC.
- **Implementing programmes, training and coordination.** Providing a South East coordination role for Home Office programmes, such as the UK Resettlement Scheme, The National Transfer Scheme (NTS) for children and young people, and other initiatives as appropriate, such as mapping and promoting good practice of ESOL provision and supporting authorities to widen dispersal in the South East
